Tru-Channel

When prime replacement windows are not an option, whether for budgetary or historical maintenance reasons, Harvey Tru-Channel aluminum storm windows are an excellent solution. Harvey Tru-Channel provides maximum energy efficiency and is one of the top performing storm windows in the marketplace today. Custom made to fit the exact dimensions of your existing prime windows, the Tru-Channel is an easy to operate, self-contained unit that will provide extra insulating value.

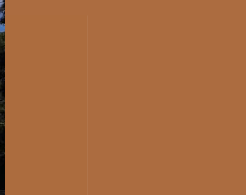

- Twice the weatherstripping as ordinary storm windows
- Both sash interlock with a sturdy frame tie bar for maximum wind resistance
- Triple-track "combination" design for self storage of sash and screen and sash tilt-in capability
- Locking non-glare, charcoal-finished fiberglass half screen
- Among the lowest air infiltration rates (.05 CFM/FT) of any storm window
- Approved for Airport Sound Abatement Programs nationally
- Marine glazing seals keep the glass tight and secure in its frame
- Optional steep slope expander available

Comparative Air Infiltration Rates (CFM/FCP)

The lower the number, the better the performance.

Harvey storm windows are available in a variety of styles including double hung, rolling and picture.

Rolling

- Combination of heavy duty wool pile and solid barrier weatherstripping
- Sash ride on durable composite wheels
- Marine vinyl glazing
- Spring loaded sash locks
- Vertical sash members are hollow extrusions
- Inside or outside mounting configurations

Picture

- Heavy extruded aluminum master frame
- Marine glazed inserts can be removed from outside
- Screwed corners permit easy reglazing

Combination Basement

- Wool pile around entire perimeter
- Thumbscrew clip permits exterior removal of glass without tools
- Fiberglass screening built into master frame
- Marine glazing in wrap around vinyl
- Heavy duty mitered frame is held rigidly in place with zinc die cast corner keys
- Standard pre-punched installation holes
- No expander available

Deadlite

- Installed by drilling holes through the frame or by using aluminum clips and screws to fasten directly to the casing without drilling

storm doors

Estate Series

Engineered with both quality and beauty in mind, our Estate Series has become our premium storm door. Estate Series storm doors are pre-hung, foam insulated, heavy-duty aluminum storm doors which provide maximum protection against the elements. Estate Series doors include best-in-class innovations such as the Cabriolet's retractable screen hidden away in the head of the door when not in use.

- Prehung for fast, easy installation
- Foam insulated frame
- Lifetime hinges
- Heavy extruded aluminum corner gussets
- Adjustable sill expander
- Single heavy duty closer
- Deep wool pile weather-stripping
- Concealed installation screws
- Tempered glass
- Available special order in custom sizes

Cross-cut view of heavy duty aluminum

Additional Cabriolet options:

- 1-3/4" mainframe designed for strength & beauty
- Sash interlock for weathertight fit
- Heavy overlapping double weatherstrip
- Automatic screen reset feature

storm doors

Lifetime

The Harvey Lifetime storm door offers greater insulating power and convenience than ever before. A heavy-duty solid wood core wrapped in a seamless white vinyl or bronze aluminum skin provides superior insulation while resisting dents. A hinge system made up of five independent Oilite bearings provides extra durability.

Glass inserts with heavy-duty wool pile weatherstripping keep winter winds out while heat and warmth are sealed inside. We have eliminated exposed screws or other fasteners to give each Lifetime storm door a more finished appearance.

- Pre-hung solid wood core door
- Glazed with 1/8" tempered glass
- Available in stock sizes and can be custom made to fit your opening
- Deep wool pile weatherstripping

- Acrylic

screens

- Fiberglass wire (standard)
- Aluminum wire
- Heavy duty stainless steel

additional options

- Beveled glass (shown in photo)
- Scallop design
- Raised mouldings

Traditional

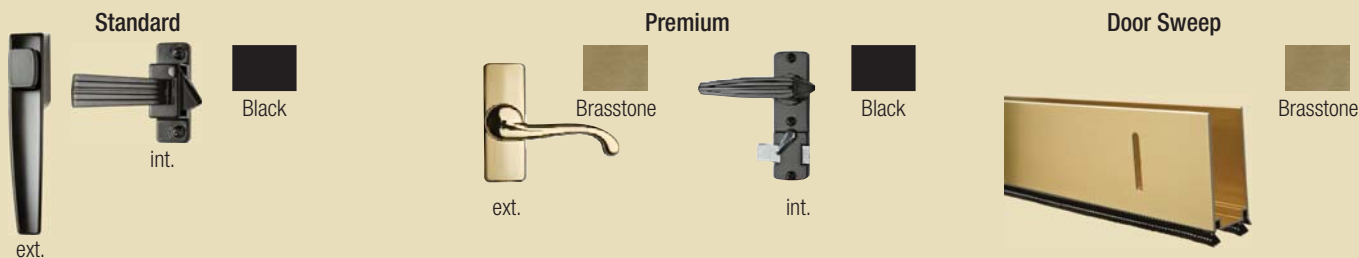

The Harvey Traditional storm door has been designed to suit your style. Each door comes with both a glass and a screen insert. The glass insert has wool pile weatherstripping to provide extra protection against drafts. For greater durability, electrostatically-applied enamel paint is baked to a hard, tough finish.

- Full-length piano hinge is pre-lubricated and anodized for long trouble-free service
- Door frame is constructed of heavy-duty tubular extrusions
- Super strength extruded corners are guaranteed against breaking or sagging
- Seasonal changes from glass to screen are easily accomplished with thumb screws and clips
- Adjustable bottom expander has dual weatherstripping to ensure a snug fit to the threshold
